

Our Philosophy and Approach to Corporate Social Responsibility

- Local Employment, Training & Apprenticeships
- Charitable Support

Onna Engineering Inc. contributes considerably to local employment initiatives via its main contracts throughout the city/country of operation. Many of the contracts have Community Benefit clauses whereby Onna Engineering Inc. commit to local employment, work placements, training opportunities and apprenticeships.

Onna Engineering Inc. is believing investing in young people which has led us to many successful outcomes in building loyalty, commitment and developing staff at all levels within the business. Significant resources are allocated to training staff in installation, administrative and network technologies related skills.

Presently Onna Engineering Inc. has employees consisting of engineers ,foremen ,semi and high skilled workers ,technicians ,draftsman ,staff, and Apprentices/trainees. Our work-force operate within our offices in Istanbul, and across our project sites throughout the worldwide operation locations .

Onna Engineering Inc. remains committed to working with local subcontractors and suppliers in carrying out all aspects of contracting services. Many of our framework contracts are secured on our ability to deliver local and sustainable economic contribution and advantages.

This flexible model of employment and creating opportunities in various technical skills is core to our everyday business approach.

Community

Onna Engineering Inc. aims to develop positive relationships in the local communities in which we operate.

Our objective is to understand the needs of these communities and provide support to projects that bring positive benefits to the local area.

Corporate & Social Responsibility Policy

We try to identify suitable opportunities to donate to national charities (orphans foundation, , foundation for children with leukemia etc.) , veterans association and educational communities to help provide education to children and families in need.

Building for the Future

Established in 2015, we remain committed to developing skills in services for future generations. Our social responsibility to our local communities is to provide opportunity and create employment. We will remain true to our local area and support charitable good causes creating goodwill in all our actions.
